The Lawrence Lancer

"The Battle of Waterloo was won on the playing fields of Eton"

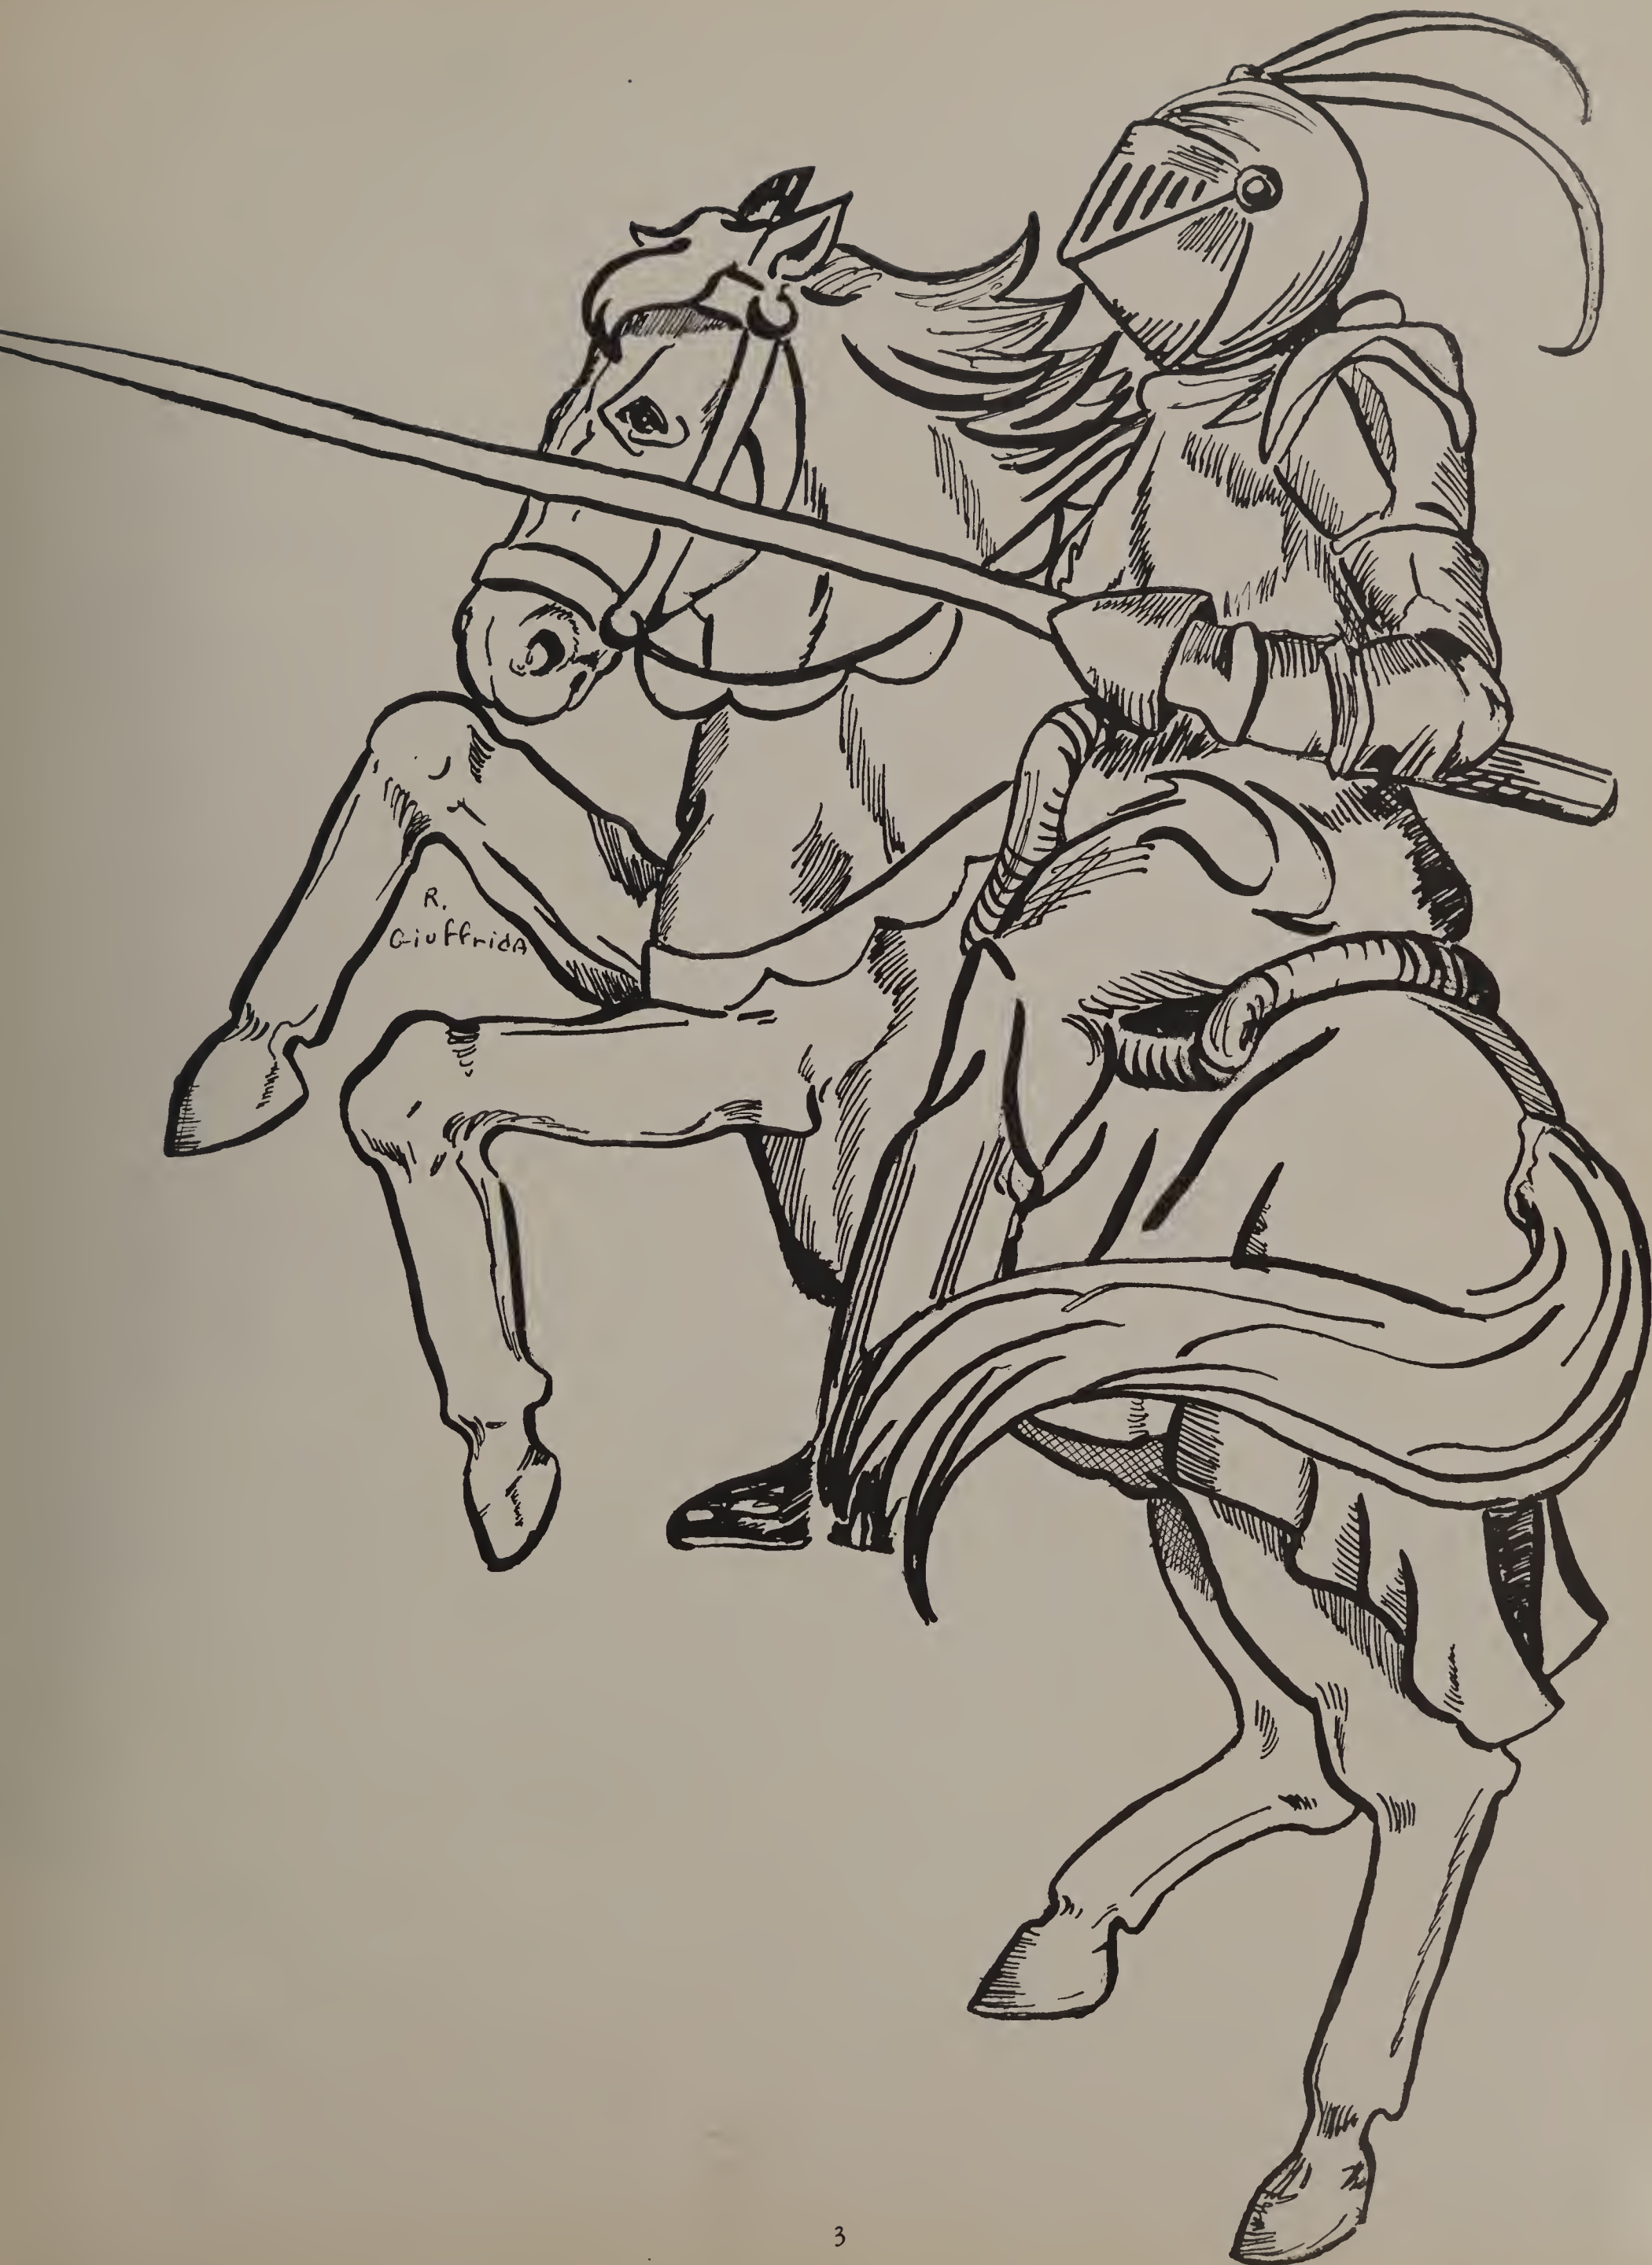

Lawrence High School has kept this old adage in mind for three quarters of a century. Its first uniform football team was organized in 1881. Down through the years, the medium of athletics has served as a teacher of leadership, discipline, and co-operation.

From the erection of the "old building" in 1849, Lawrence High School's athletic teams were called "The Blue and Whites". After the greatly publicized "No God, No Country" strikes in 1912, the title was changed to "The Strikers". However, the nickname soon became out of date, and the athletic teams became again "The Blue and Whites".

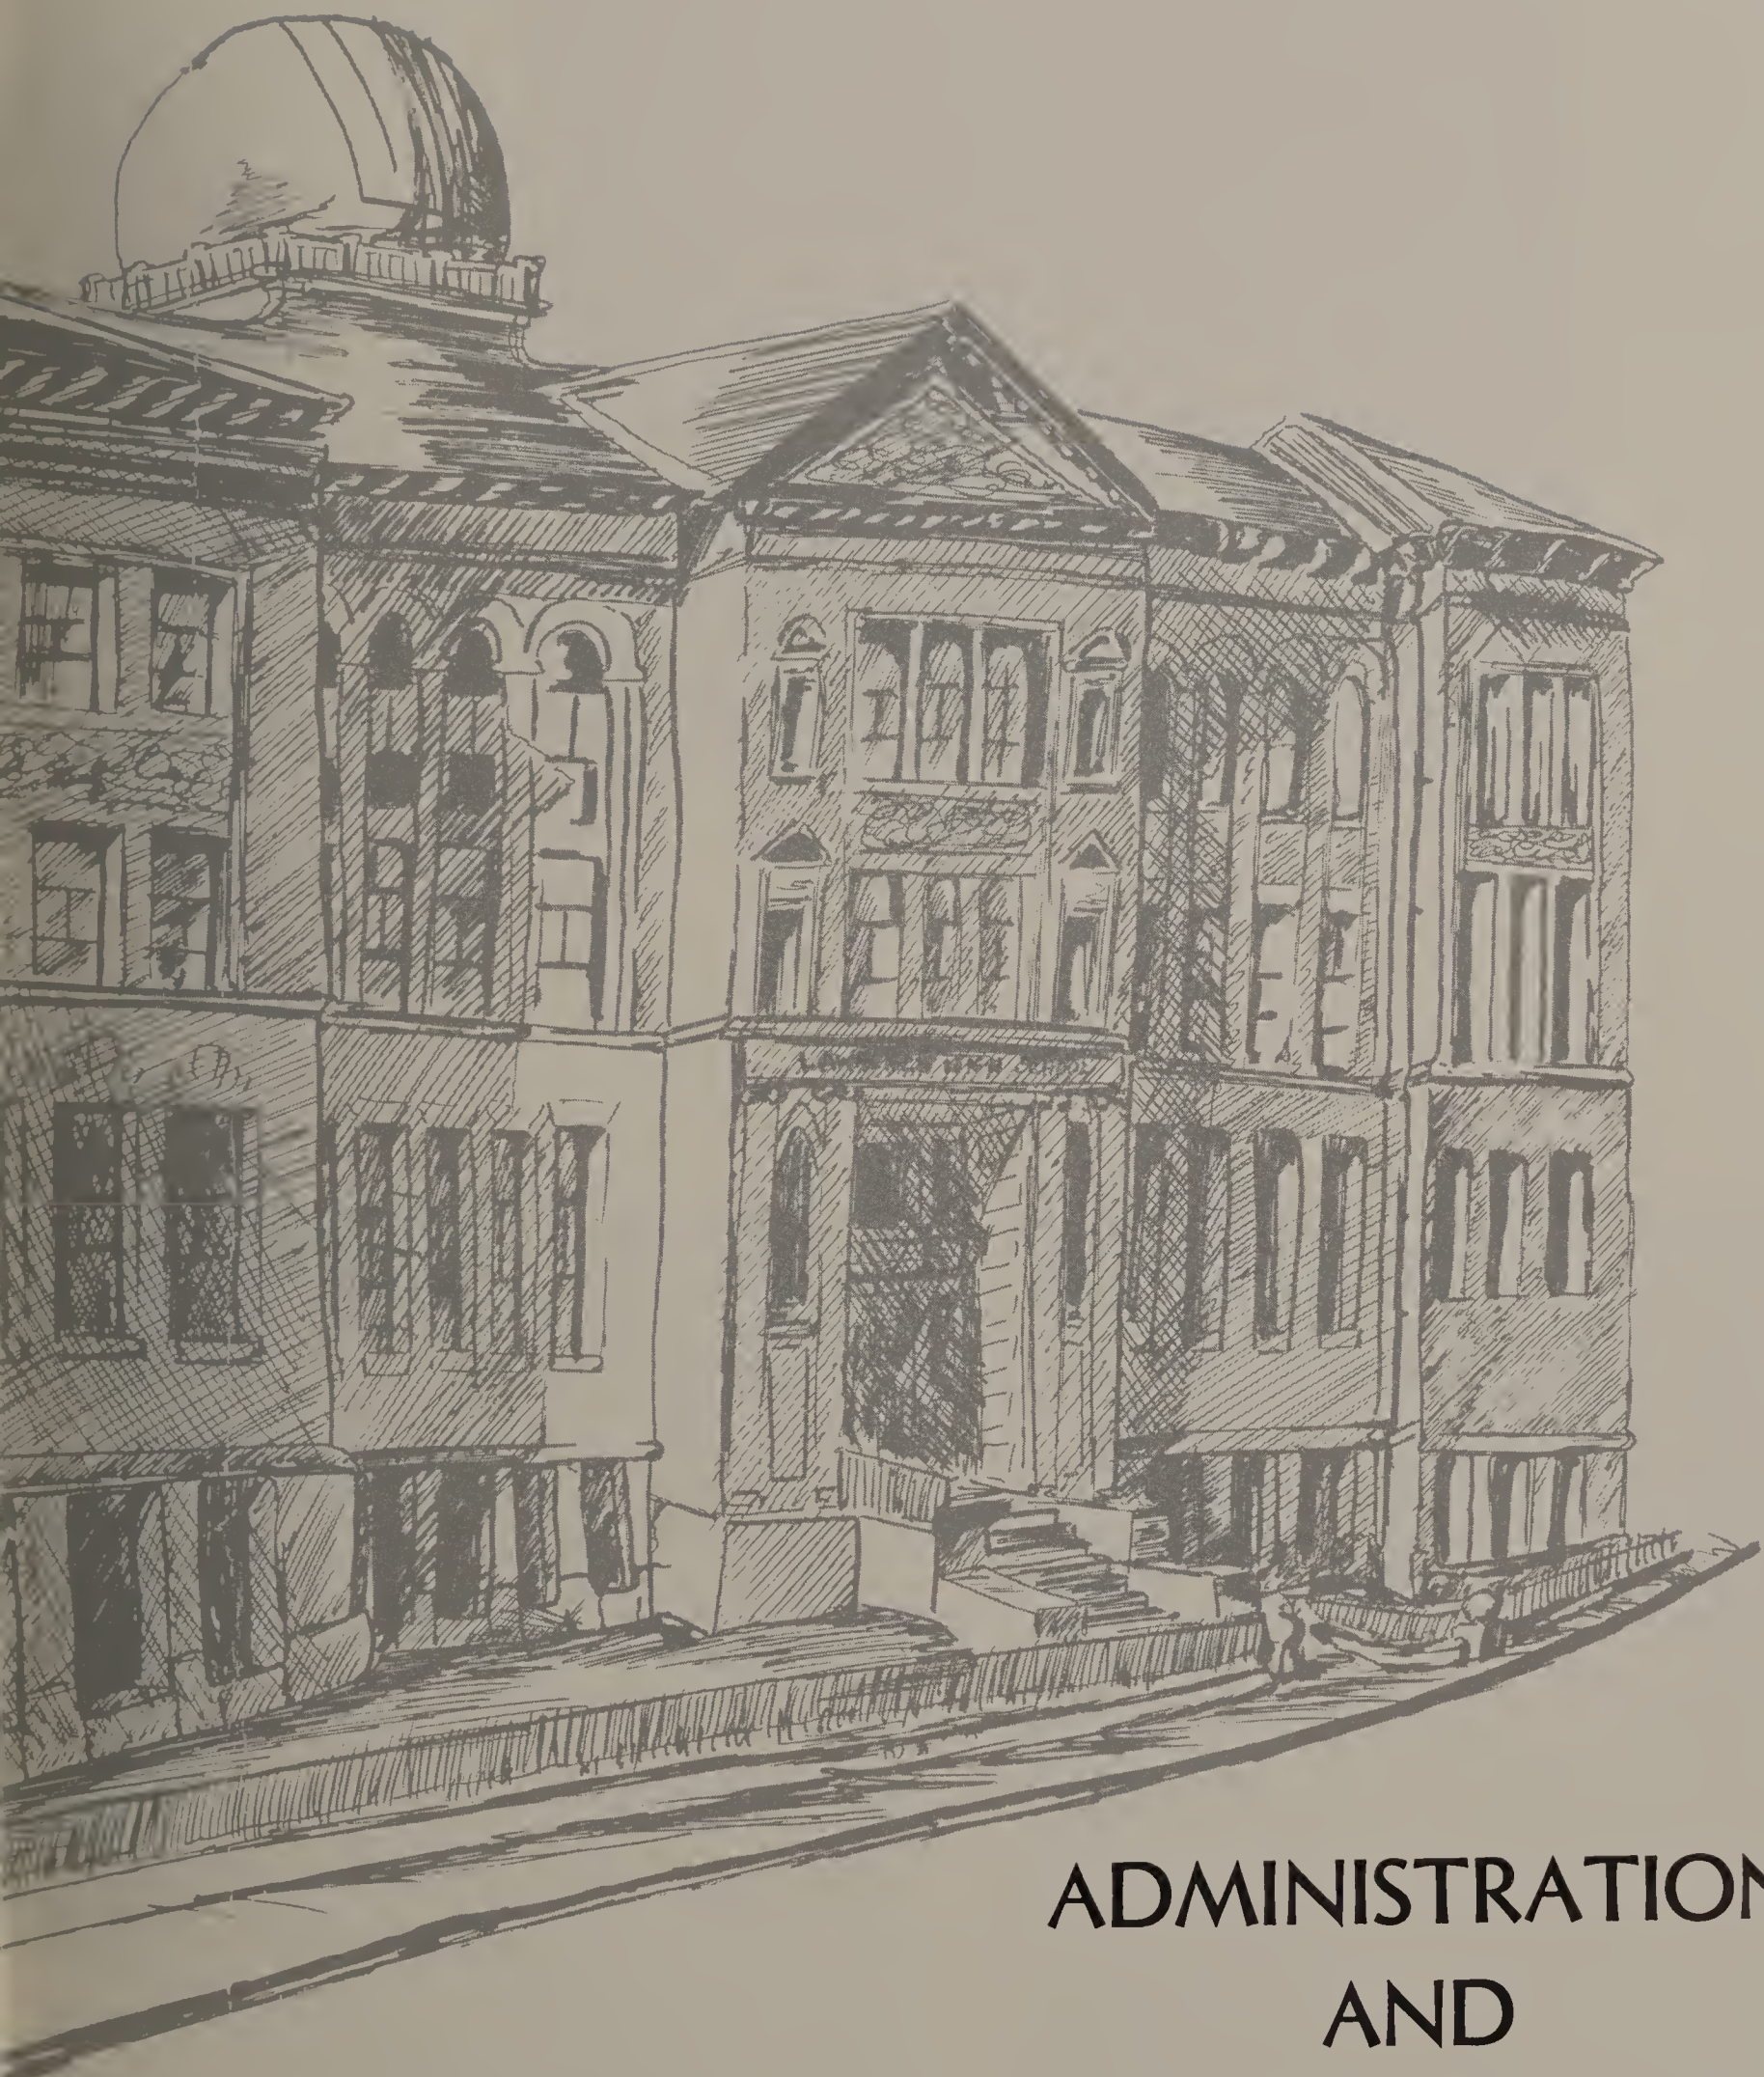

As the years went on, our football team improved steadily. However, in 1951, the only time in the school's history, the Lawrence High School eleven failed to win a single game, finishing the season with nine defeats in nine contests. During that season, in the Haverhill game, the score was 48-0 at the end of the first half. A less determined band of athletes might have abandoned football altogether! However, "The Blue and Whites" roared back, and reached a peak in 1957, sweeping aside all their opponents to win undisputed possession of the Class A championship. In winning this goal, the players exhibited the same tenacity their elders displayed when they conquered the unemployment problem brought on by the closing of the Lawrence mills in the last decade.

The courage and perseverance of this football team of 1957 so inspired Bill Ferguson, a reporter for the Eagle-Tribune, that he dubbed the players "The Lawrence Lancers". This name caught the imagination of the general public, and our teams have been known as the "Lancers" ever since.

The Lancer, as we imagine him, is on the opposite page. We hope we shall always be worthy of this symbol of courage and chivalry.

"Listen my children and you shall hear . . ."

How did they ever think up these questions?

The Tables are Turned

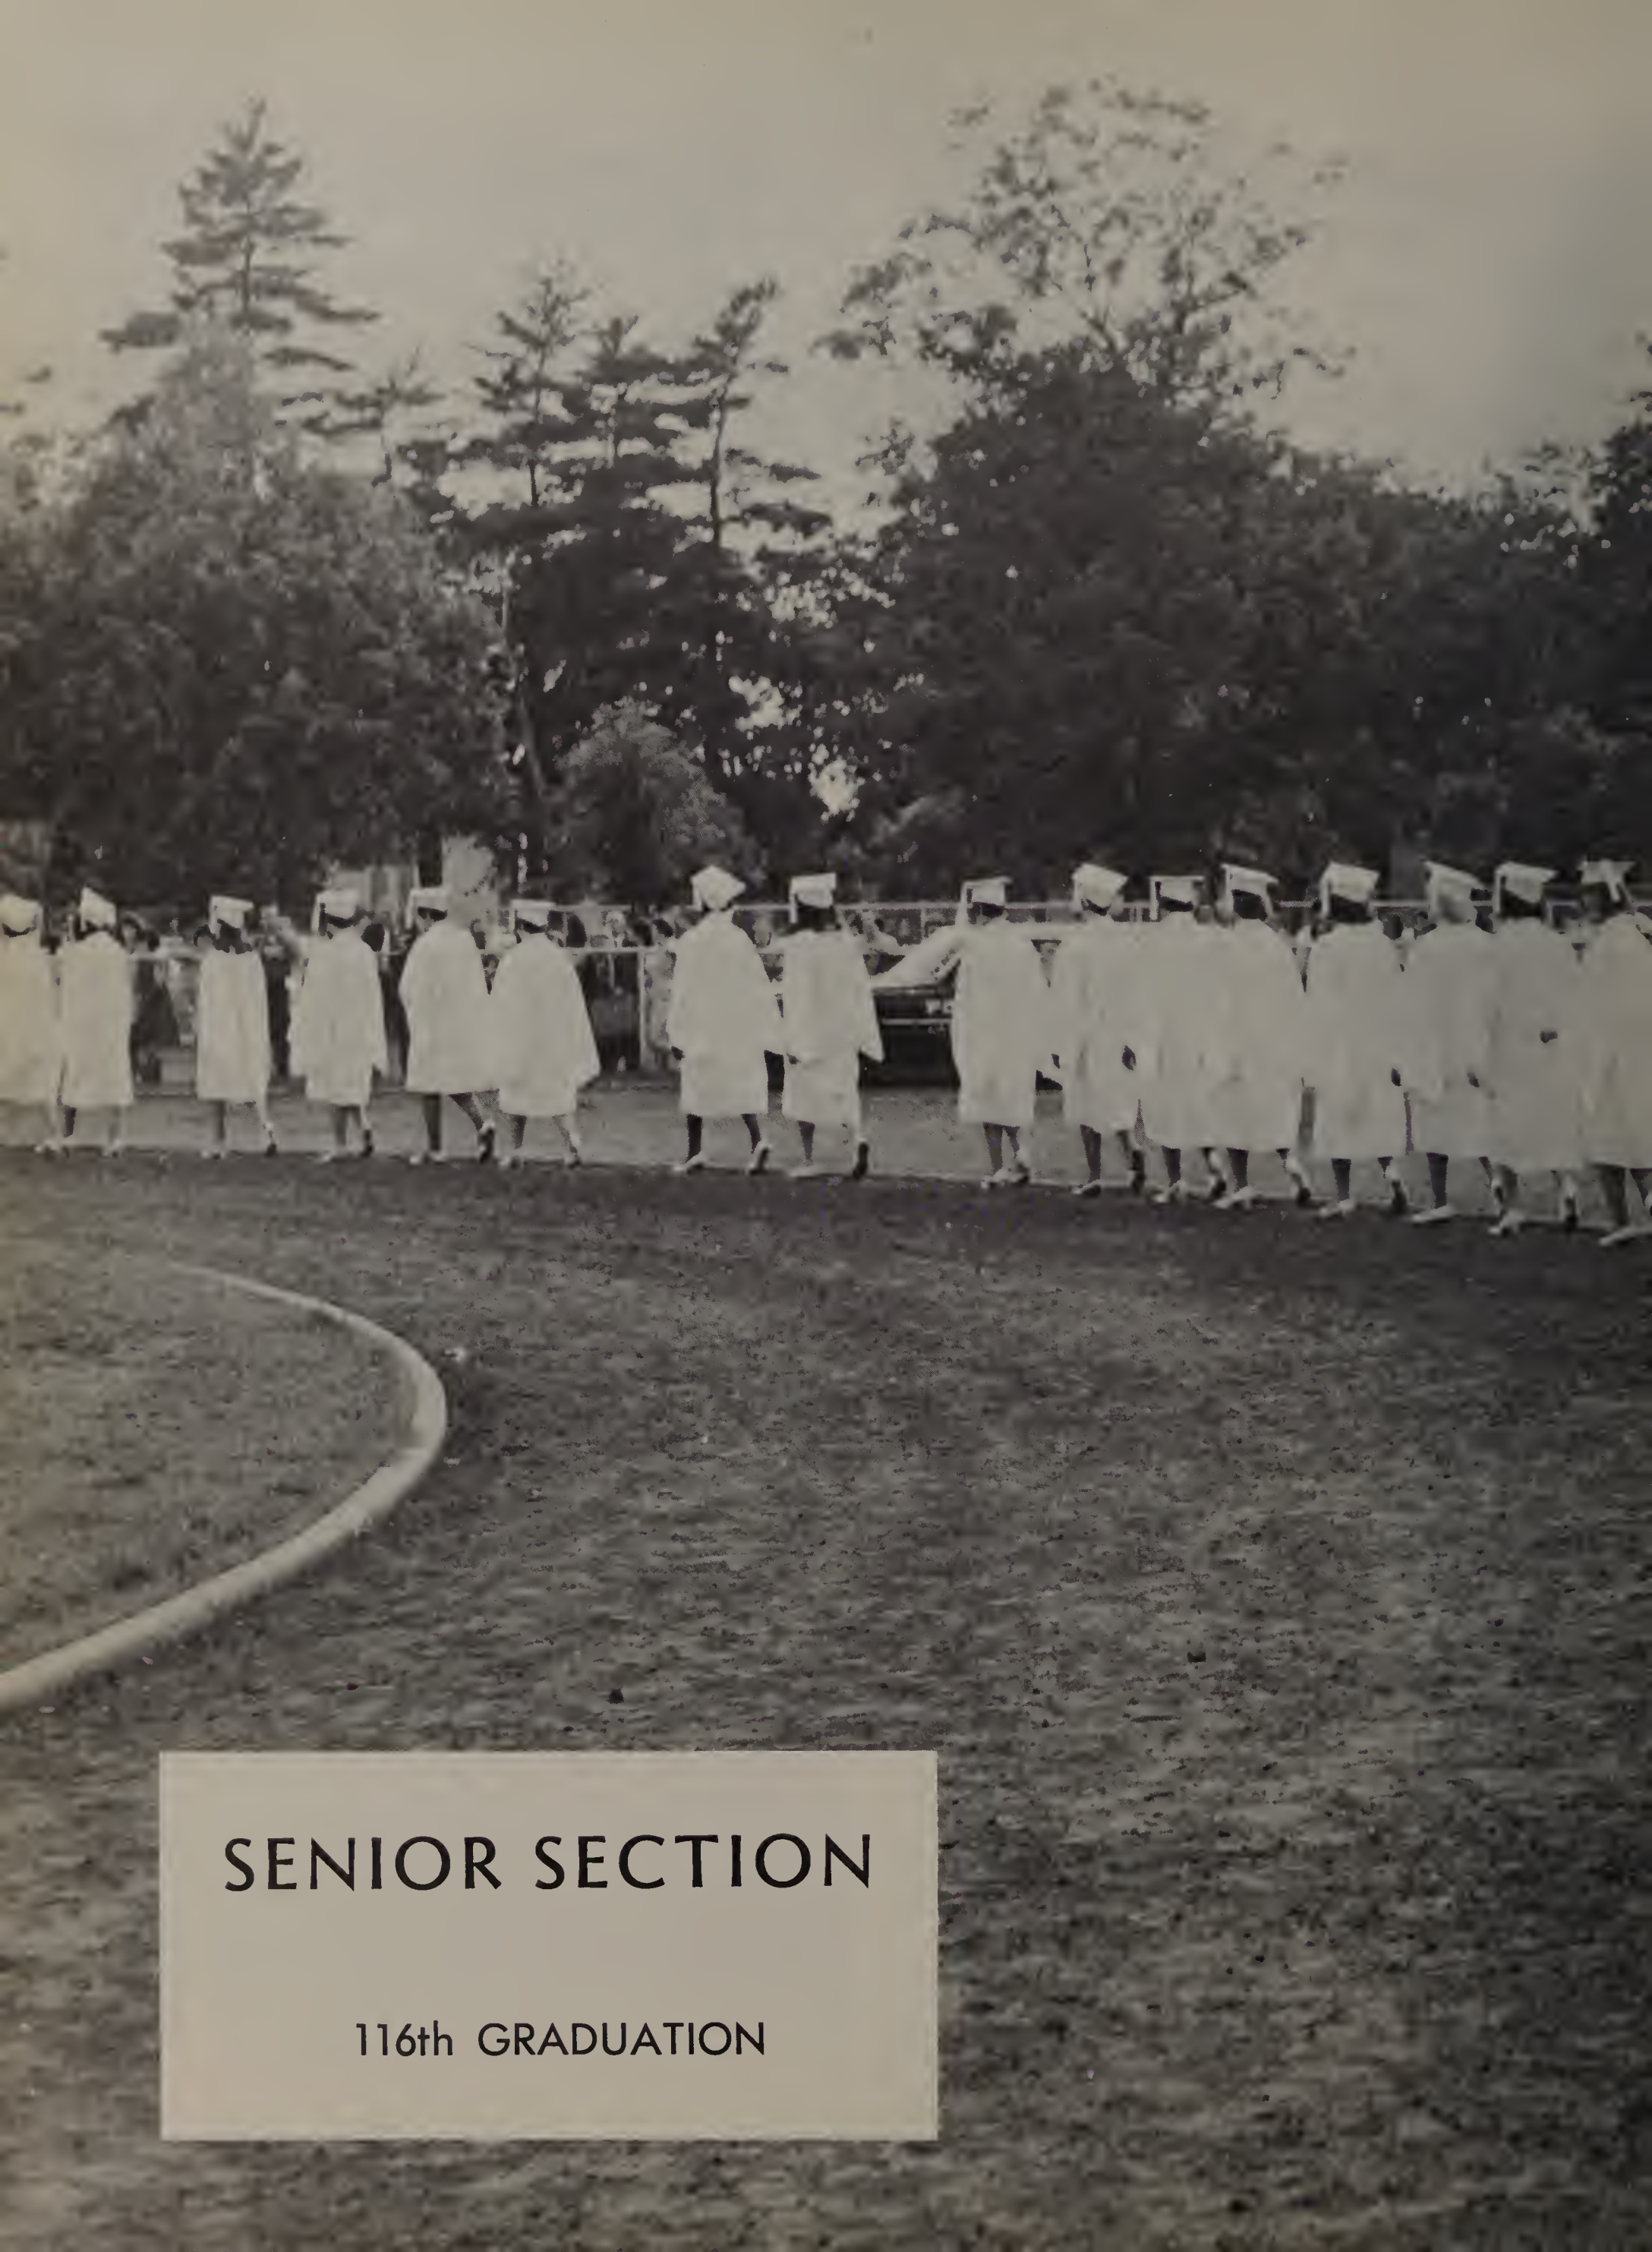

This year, for the first time, the State Board of Education distributed a questionnaire to be filled out by every teacher in Massachusetts public schools. Fortunately for us, on the day this meeting took place in Lawrence High School, the yearbook photographer was in the building. We feel these pictures are priceless, because they seem to reverse the usual procedure, and put the teacher in the place usually occupied by the student.

$2 + 2 = ???$

Relax!! It's finally finished.

CLASS ELECTIONS 1966

After several weeks of vigorous campaigning by all the nominated candidates from the four classes, on Tuesday November 14, 1966, a revised system of elections for class officers was initiated in the high school. Under the supervision of Mr. John Wilson, head of the Social Studies Department, the members of the Public Affairs Club successfully conducted the elections for all four classes. The pupils from the

individual classes filed by homerooms to the improvised polling booths, where they cast their ballots for the previously nominated candidates of their choice. The institution of the altered plan, modeled after the democratic process of elections, afforded the students a valuable opportunity to view an important phase of democracy, one which stabilized our country and made it as strong and free as it is today.

SCIENCE

In this rapidly changing world of ours, great technological advances have resulted in the availability of new, and more complex jobs. Because of this important challenge to our generation, the method of scientific instruction, and the material covered in science classes has been greatly changed and expanded. Lawrence High School's science department has moved with the times, and recognizes the great importance of advanced instruction in this area. Pupils are offered a large range of science courses from which to choose. Each pupil is afforded the opportunity to discover the challenging world of science. Through biology, or botany, or chemistry, or physics, a whole new world is open to him—and in this world, he may find his future.

HISTORY

The main object of any study connected with history is to prepare the student for responsible citizenship. Our great country was founded on what we have learned from the mistakes others have made. A careful examination of the history of civilization helps the student to see his own life and democracy in greater perspective. Civics and United States History are required of all students, but one may also elect ancient history, world history, or problems in democracy. Each subject is designed to familiarize the student with the structure, foundation, and operation of government. In addition, various aspects of citizenship, such as social institutions, economic systems, human relations, and selections of major vocational areas are covered.

LANGUAGES

The Language Department of Lawrence High School offers an unusually varied program to its students. There are courses in five modern languages, French, German, Spanish, Italian, and Russian—and, of course, Latin has always been an important part of our curriculum. The pupil with an aptitude for languages can graduate with an excellent background on which to build an exciting career in any of the areas where fluency in several languages is required.

There are records, tapes, and labs available to help develop that perfect accent that makes it hard to distinguish the American from the native! These aids are also an excellent way for the student to see his own progress, and become inspired to progress even further.

In a world which is becoming smaller every day, with few barriers from one country to another, communication among men is more important today than it has ever been. The exchange of ideas, and the solving of problems in a congenial atmosphere by men of all nations may some day bring about the peace for which the world longs.

The Business Department is all business! Students who plan a career in the business world have available to them, a course in any type of work they find appealing. In the early high school years, there are required subjects, which lay the foundation for more advanced work to follow. These basic courses also help to develop vocational preference, so that students may specialize in later high school years in the particular area for which they have an aptitude. The graduate goes into the business world completely prepared to assume the responsibilities in an office large or small, as a secretary, bookkeeper, or office machines operator. Our business course graduates are in great demand in the city of Lawrence, due to their reputation for efficiency, dependability, and general excellence.

ENGLISH

In this high school of more than 2,200 pupils, English is the largest department, since it is a required subject for every pupil, every year. The subject matter in the English classes varies with the course. College English provides the pre-college pupil with the tools he needs to write effectively, and think soundly. It gives him an excellent literary background, by placing considerable emphasis on wide reading of all types of literature.

English in the business course emphasizes such skills as letter-writing and spelling, at the same time giving the pupil a broad choice of reading, from classical to contemporary.

In the general course, the emphasis is largely on basic grammar and developing in the pupil the ability to express himself clearly in writing.

MATHEMATICS

The growing importance of mathematics in this modern world is fully realized by the Mathematics Department of Lawrence High School. This is the age of computers and advanced technology, and mathematics is the beginning, the middle, and the end of scientific thought today.

Math is taught at all levels in each course—from general mathematics to advanced math, trig, and calculus. The college preparatory course prepares the young man or woman for the highly advanced and technical work in math, physics, and the sciences which is common in colleges today.

As the population increases, so does the competition. Our mathematics department produces young men and women who are both willing and anxious to meet the challenges of the computer age.

Mr. Praetz explains the triangle to Carl Weller, Bill Bergeron, Kathy Boyle and Diane DeBenedetto.

Linda Baumier and Cathy Oliver sew on the machines while Phyllis Fucca waits her turn.

HOME ECONOMICS

Every young woman wants to know how to run a well-appointed home properly, and the Home Economics Course teaches her how to do it. She learns the fundamentals of cooking, sewing, decorating and home management. She is encouraged to develop her own ideas, and to improvise where necessary. The young lady who completes the Home Economics Course satisfactorily graduates from high school confident that she will one day establish a home of her own.

P U B L I C S P E A K I N G

The poised individual is the one who speaks well and confidently, and the Public Speaking course is intended to give this self-confidence to every senior pupil in Lawrence High School. While the new student approaches the course with fear and trembling, he soon discovers that it is not only one of the most useful subjects he has ever taken, but also one of the most fun. Pupils learn a great deal about their classmates—their hobbies, some of them most unusual, and their outside school activities in general. Some of the pleasantest memories of high school days come from Public Speaking.

BOYS

In recent years, a greater emphasis has been placed on Physical Education in the public schools. Due to the efforts of the President's Council on Youth Fitness, the great need for daily physical activity has been realized. During all four years, every student of Lawrence High School who is physically capable is required to take gym at least once every week. The gym period is filled with a variety of modern and traditional exercises adapted to the needs and proficiency of the individual.

MAJORETTES

The 1966-67 year for the Lawrence High School Majorettes was an active one. The corps, under the instruction of choreographers Lois and Beatrice Gingras, consists of fifteen spirited girls, headed by Captain Geraldine Ciardello, and Co-Captains Linda Garon and Nancy Cronin. The girls perform at all Lawrence High School football games, and also take an active part

in field days and musical festivals. They lead the band in the two traditional parades held in Greater Lawrence, the Memorial Day Parade, and the Christmas Parade. For their grand finale of this year's football season, the majorettes, attired as Toreadors, entertained their fans by dancing to the music of Tijuana Brass at the Thanksgiving Game.

At the pre-game rally are Maureen Mignault, Susan Petrovich, Eleanor Schwartz, Elizabeth Fitzgerald, Donna Donahue, Nancy Cronin, Cynthia Tortolano, June Kelley, Linda Roszak, Elaine Bistany, Linda Garon, Geraldine Ciardello, Diane Campanile, Sheila Gaudes, and Lesley Greene.

RUSSIAN CLUB

Under the direction of Mrs. Elinor-Marie Kelley, the Russian Club engages in many activities, most of which take place during bi-weekly meetings held in class. Members of the club enjoy discussing Contemporary Soviet Society and literature, and have secured a great deal of information on these subjects by writing to many sources. Each year, the club

members have prepared a news magazine, dealing with subjects of interest to Russian language students, and printed entirely in Russian.

Club members also enjoy listening to Russian music and learning the folk songs of the Soviet Nation. The club also attends Russian movies.

The student newspaper, "The Lawrencian", is under the supervision of Andrew M. Moynihan, Head of the English Department.

The composition of the "Lawrencian" is done entirely by the pupils themselves. Newswriting, editing, layout and reporting are handled by a group of students with Editor, Betty-Jane Welding.

This publication is somewhat unique, as the actual printing is done by members of the Manual Arts Department, supervised by Dennis D. O'Sullivan.

LATIN CLUB

The Latin Club, under the supervision of Bernard J. Kiernan, meets the second Monday of every month. Open to third year Latin students and seniors who have already completed Latin III, the club offers much enjoyment. The officers for the club of 1966-1967 are as follows: President, Andrew Schwartz, Junior Vice-President, Louise Gentile, Secretary, Elizabeth Johnson, Junior Program Director, Kathleen Kennedy, Senior Vice-President, Susan Duchemin, Senior Program Director, Marsha Poster-

nak. At each meeting, a person from each class reads a topic concerning Latin interests. It may be a biography of Virgil or a story about the Trojan War. After the stories are read, games such as Scrabble, Password, and The Scramble Game are played—seniors against the juniors. All communication must be in Latin. Although difficult at times, the urge to win makes the competition stiff and the winning worth while.

Larry Salmansohn, Ronnie Greenstein, Susan Babb, Joan Borelli, Cheryl Christian, and John Malnati work on Military Models.

Michael Masucci explains Caesar's strategy to Latin Club members, Maureen Sullivan, Jeffrey Lannon, Rosemarie Sapienza, and Janice Lannon.

GERMAN CLUB

Among the extra-curricular activities of Lawrence High School, the German Club maintains one of the most active schedules. Meetings are held twice a month under the leadership of Miss Justine Devlin, the newly elected head of the modern foreign language department. Open to all students who have completed two years of German, the German Club is dedicated to the goal of acquainting its members with both traditional and con-

temporary phases of German culture.

At the meetings "Deutscher Verein Mitglieder" sing German songs, play word games, and plan coming activities. Among them have been the traditional Christmas caroling in the Lawrence Common, field trips to museums, and participation in AATG exams. In the future, the German Club looks forward to continued growth in membership and activities.

PEP CLUB

The Lawrence High School Pep Club originated during the football season of 1964, under the supervision of Mrs. Robert LeFebre. The group is made up of cheerleaders, and students from all classes. Its purpose is to instill and encourage school spirit.

The club members gather at football and basketball games, to cheer our teams on to victory. Before each game, they fashion

pins with victory slogans, which are worn in school by both students and faculty members.

Another Pep Club activity is painting posters to hang in the corridors and locker rooms.

There is no doubt that the club has made constant progress toward its goal, and school spirit has been a more active, living thing at Lawrence High School since 1964.

YEARBOOK

In the year 1944, Lawrence High School students produced their first yearbook, and in two short years they will be celebrating the silver anniversary of the "Blue and White."

The yearbook staff is made up of hard working and dedicated seniors from every course, who spend many long hours writing, doing layouts, accompanying the yearbook photographer on his picture taking tours, discussing ideas, and from time to time making weary comments, such as, "I had no idea it was going to be this much work!" Of course it isn't all work and no play

—there's the fun of getting an advance look at the pictures that are going to be used in the book, of learning to work with other students as a compact, smoothly functioning unit, of making new friends, and of collecting a lot of memories for pleasant recollections for years to come.

We hope that this year's "Blue and White" will reflect the time and thought that has gone into it, and provide the class of 1967 with a record of its high school years that it will long cherish.

PUBLIC AFFAIRS CLUB

The Public Affairs Club, under the direction of Mr. Milton Lebowitz, is one of the newer extracurricular activities at Lawrence High School. Formed two years ago, the club's membership has grown rapidly in this brief period. The members have adopted their own constitution and by-laws.

At the weekly meetings, strict parliamentary procedure is observed. The frequent discussions which arise over the right to be recognized by the chair demonstrate the spirit and interest the club's members have for its activities.

In the future, the club plans to have guest speakers, to do volunteer work for the United Fund, to visit local government meetings, and to discuss controversial subjects.

All members of the student body are invited to attend the meetings, which are held in Room C. The only qualification for membership is the desire to arouse the interest of fellow students in local, state, and federal government activities, and in world affairs.

GLEE CLUB

The Glee Club is now in its fifth year of existence, under the skillful direction of Miss Mary F. Lanigan.

In the fall, the members gather and begin preparations for the Christmas Holidays. They participate in the annual Christmas Concert, held on the Lawrence Common. For the entertainment of the faculty and student body, just before Christmas vacation, they stroll through the high school corridors, gaily singing carols.

With the dawn of the New Year, they diligently "tune up" for the annual "L-Pin" Award Ceremony and the annual Choral Band Concert.

This year the Glee Club has a record membership, with eighty students who enjoy the harmony and good fellowship of group singing.

Club officers with Miss Lanigan are Diane DeBenedetto, Samuel Yazbek, Samuel Hagopian, Donna Vanderspurt, and Jacqueline Kopacz.

Rehearsing a new song are Susan Parlin, Robert Lister, Richard Bourget, Joseph Bolis, Anthony Fucca, Marilyn Doyle, Carol Gangi, Kathleen Malone, Carleen Newbert and Linda Mills. Seated are Diane DeBenedetto and Marguerite Kelley.

Founded in 1925, The Lawrence High School Band is one of the oldest high school music groups in the country. Under the direction of Mr. Oswald Vogel, the band is the most active student organization in the school.

The marching band, consisting of about seventy musicians and fifteen majorettes, faithfully strives to uphold the honor of our school, as well as to elicit school spirit and loyalty from the student body. Lawrence High School is indeed fortunate to be represented by one of the most precise marching musical units in the state of Massachusetts.

Although most people remember the band for its festive contributions on the gridiron amid the electric atmosphere of the stadium, few recognize it as a serious concert band which performs during the winter and spring, always undertaking a difficult task in striving for perfection in tone, rhythm and sensitivity. The difficult selections which the band plays demand many hours of vigorous practice, but the pride and satisfaction that each member feels while performing at the annual spring concert easily compensate for every rehearsal.

In spite of the hard work, the band affords its members a great deal of enjoyment.

Speakers Club Members

SPEAKERS' CLUB

The Lawrence High School Speakers' Club is composed entirely of seniors who love to talk, and exchange ideas. It meets monthly, and holds group discussions on matters of particular interest to the members. One of the most popular subjects this year, as it always is with young people, has been the youth of today, and his problems, responsibilities, image, and relation to the community. The talks are lively, spirited and often more than a little warm! The club's moderator, Miss Marian Shine, deftly keeps things moving, and develops in her charges the proper attitudes toward such discussions. Club members learn to disagree intelligently, without involving personalities. Members of the Speakers' Club acquire a great deal of poise and self-confidence during their senior year.

COMMERCIAL CLUB

Under the direction of Mrs. Kathleen LeFebre, the Commercial Club meets monthly. The members consist of second, third and fourth year business students who are majoring in bookkeeping, stenography or office practice.

Leaders in the commercial field offer information on the latest developments in the world of trade by lecturing to the organization at after-school assemblies. Listening to speakers from colleges, banks, business establishments, and the Northeastern Regional Office of the Internal Revenue are just a few of the activities enjoyed by the members.

The club strives to develop responsible, mature and intelligent business men and women.

The Girls' Debating Society of Lawrence High School is one of the oldest, and most respected extra-curricular activities the school offers. The organization was originally formed under the direction of Miss Mary A. Driscoll, "as an autonomous society for girls to practice democracy." It was, at one time, the only activity open exclusively to the female members of the student body. The present advisor is Miss Julia McCarthy.

Debating is an effective way for a girl to develop many desirable qualities. Perfect poise and diction, and effective speech are the main objectives of the organization. The senior girl who is considered outstanding, in that she possesses all these qualities, is selected by her fellow debators as Best Speaker. She is awarded the Mary A. Driscoll Prize at the end of the school year.

BOYS DEBATING SOCIETY

The Lawrence High School Boys' Debating Society, the school's oldest extra-curricular organization, was founded to give young men the opportunity to increase their public speaking ability. Over the years, it has instilled poise and self-confidence into countless young men.

Continuing the tradition of its predecessors, the present Boys' Debating Society has had an active year. Under the direction of Joseph X. O'Neil, the Society debated schools from all over New England at the annual debating tournaments, which were held at Suffolk University. In addition to tournament debating, the Society was also active in the Merrimack Valley Debating League.

For the first time since 1961, the Lancers of Lawrence High School have posted six victories, including wins over arch-rivals Central Catholic and Haverhill. With only three veterans remaining from the 1965 squad, Coach Callagy was at a loss for experienced players. However, seven senior men plugged the holes on the line, and did a magnificent job during the entire season. Also remarkable on this year's team was Jim Melnick, a fifteen year old, signal-calling sophomore. With Roger LeBlond and Paul Herbert as co-captains, the team stayed together, played together and fought together, experiencing victory, triumph, and of course, the agony of defeat.

The Lancers' first game was a close 14-6 squeaker, but the Blue and White were just too inexperienced for the powerful Little Green of Manchester Central. Co-captain Roger LeBlond pulled in the only score with a ten yard pass. Incidentally, the Little Green repeated as New Hampshire State Champs.

Assistant Athletic Director Bernard McDonough and Athletic Director Ralph Wolfendale.

Head Coach Gerald Callagy.

Peabody's Tanners gave their first win to the Lancers, when after a scoreless first period, the Blue and White scored a solid victory. The running of Paul Herbert and Frank Brucato made the difference in that one. The victory party was great!

The Lancers' second win came over Lynn English. Lynn, scoring for the only time in the season, intercepted one of our passes. The outstanding running of Paul Herbert gave us a quick lead, and a 20-6 victory.

Beverly, always a tough opponent, provided the Lancers with their third triumph, 20-0. It was during this game that Don Hauenstein and Jim Melnick came into their own. The passing of Melnick, and the running of Bob Ventrillo paved the way for this one.

Now came the real test! Salem's Witches were a big and powerful lot, and were rated number one in the Essex County League, but a determined Lancer squad, with victory in its heart triumphed in a wild and wooly finish. The entire team shone in that one, especially the line, which refused to yield yardage in the face of a strong attack.

Behind the lines action.

Ample punt coverage, wouldn't you say?

As a result of the Salem win, the Blue and White became a little cocky, and went into the traditional game against Central Catholic of Lawrence, expecting an easy victory. However, a stubborn Raider unit held the score 0-0 for three periods, and then drew first blood. With six minutes left on the clock, in a confused and broken play, Melnick flipped a flare pass to Herbert, who ran through the Red and White for a score. Melnick, displaying his cool, then kicked the point, the margin of victory.

The game with Manchester Memorial was cancelled, due to rain.

With a two week layoff, the Lancers met their next arch-rival, Haverhill, on the Haverhill field. Lawrence took to the air, with Melnick passing over thirty times. The score see-sawed back and forth, and the game was won in the last forty seconds when Melnick came through again with a field goal, driving the fans wild. These three points gave Lawrence the victory, 23-20.

They say you can't win them all, and a disappointed Lancer team, after playing its heart out, conceded defeat to Lowell in the traditional Thanksgiving game. There's always next year.

All through the season, the team was cheered on by its loyal followers in the student body, who attended each game in force, and shouted encouragement from the stands.

Bill Callagy is off and running.

BASKETBALL

Despite a slow start, the Lancer cager team struck back in the second half of the season with some important wins, including one over our intra-city rival, Central, and an upset win over Peabody, ending the season with a 6-14 overall record.

This year, for the first time in the history of the LHS-CCHS series, Lawrence won on both the Central court and its own home court.

With only two varsity men, Captain Bruce Fielding and Roger LeBlond, returning to action this season, Coach Joe Carter depended greatly on the help of Jim Hurley, Dennis Timmons and Al Gidley, all coming up from the J.V.'s. A lack of height was also a decisive factor in this year's team, with Jim Hurley being the tall man at 6'1". Hurley also led the team's scoring with Roger LeBlond and Captain Fielding adding many back-up points. Al Gidley was the quick-and-light rebound man for the quint. Dennis Timmons proved to be a great hustler, taking over the ball in many tense moments. Mike Mansour was an able sixth man, coming off the bench in many tight situations.

WRESTLING

The youngest sport in Lawrence High School to date, and probably the fastest growing in fan appeal, is the Lancer wrestling team. The team was organized last year, and wrestled in only a few exhibition meets, but this year Athletic Director Ralph Wolfendale put together a stiff schedule, and the team came through in fine style.

Coach Bob Fitzgerald received upwards of thirty candidates for both the varsity and jayvee slots. Led by Captain Tony Lahoud, the matmen took on more experienced wrestlers from the North Shore district, and found excitement in a new sport.

Home meets, held at the YMCA where the team also practices, were jammed with standing-room only crowds. As the season progressed, and the fame of the team spread, members of the opposite sex were seen peeking through the throngs which attended each meet.

Losing much of their veteran material to last year's graduating class, the Lancer harriers strove valiantly with a team of only six. Although its record was a losing one, the team has promising competitors in underclassmen Steve and Bruce Ellis, Jim Siudit, and Bob "Bronco" Morency.

Captain Glenn Keating carried his share of the load as he placed in many of the meets. Garry Belanger, a senior, was also a consistent point winner.

The 1966-67 Indoor Track Team finished the season with a record of 2-5 in league competition, and 4-6 overall. However unfavorable the record seems, it doesn't show either the potential or the achievements of the claymen. Overcoming such obstacles as poor practice conditions and lack of depth, the Lancer unit ran to within eight points of the league winner, Medford.

Such men as Bob Provost and Paul Herbert, dash; Tex Alsup, high jump and hurdles; Bob Lucas, 300; Marty Glynn, 600; and Captain Glenn Keating and Steve Ellis, 1,000 & mile, ran their hearts out for Lawrence High School, and accumulated points consistently throughout the season.

Every girl dreams of becoming a cheerleader! A cheerleader's main purpose, on the football field or the basketball court, is to stimulate the rest of the student body into cheering the school teams on to victory. For the football season, the cheering squad practices diligently four days a week to learn and perfect the cheers. They lead the cheers at all home games and accompany the team to opposing gridirons.

"We want a touchdown"

Three cheers for Coach Callagy!

Everybody's doing it, doing it . . .

Cathy McDonald makes it look easy.

This year the cheerleaders have encouraged the team in their own way by decorating the clubhouse and providing the boys with home-made cake to help satisfy their insatiable football appetites. Players and cheerleaders both have enjoyed this innovation!

A cheerleader must study hard, have no mark below seventy, display exemplary conduct in and outside of school, and have an endless flow of spirit and vitality.

When in Egypt, do as the Egyptians do.

Yea, team!

Just having fun.

One of the high school's newest sports entered a league this year and almost ran away with it. Lawrence High's hockey team joined the newly formed Twin State League composed of three Manchester teams, Memorial, Central, and West, and Lowell and Nashua. In the pre-season poll, Nashua was considered the team to beat, because of its long experience, but the Lancers fought to the last game and finished just two points behind. Their record 11-3-1 was good enough to get them an invitation to the Mass. State Tourney, but the majority of their games were played with out of state opponents and they declined the offer. With a second place finish in their league, the invitation to the Mass. Tourney, and the majority of the players underclassmen, their season was an extremely successful one.

Providing the offensive power were the Flying Frenchmen, our Canadian imports, Mike Huard and Claude Turgeon. Backing them up were Ron and Bert Roy and Bill Lasonde.

Their defense was sparked by the outstanding work of the goalie, Captain Russ Desrosiers, on whom no opponent scored more than three goals in a game. In the defensive line were Al Duke and Jim Wazlaw, both seniors, who showed fine progress throughout the season.

We, the Yearbook Staff, would like to express our admiration and thanks to Miss Margaret M. Horner for her constant patience and understanding in compiling this yearbook. Her guidance and stimulation did more than facilitate the complex job which the yearbook entailed. Our many endeavors could never have been accomplished without Miss Horner's knowledge and direction.

Thank you, Miss Horner.

—and so the time has come to say goodbye, and how can we say “Goodbye”, without also saying “Thank You”? And indeed, how can we thank everyone—our indebtedness is so great—but we do want you to know that WE know. We have some idea of how difficult eighteen years spent raising a child can be—after all, we were the children!

We know how our parents have struggled to bring us this far. We have seen them tired after a hard day’s work, we have seen them worried when we came in too late, and we have always seen the love in their eyes when they glanced our way. We thank them for these wonderful years, and hope that the pride they feel as they see us graduate will be only the beginning, for we intend to make them proud of us as long as we live!

Our teachers have known us well—Heaven help them! Since the first day of school they have worked—teaching, encouraging, teaching, scolding, teaching, pleading, teaching, guiding—through twelve long years, until today. We know that teaching in this atomic age is no cinch, and we know that being young, and not always as conscientious as we should be, we have also not always been completely studious, or angelic. We want to thank them for putting up with us, in their good-natured, understanding way. If we have made academic progress, and we hope we have, the credit is theirs, and they will share our future—for we cannot help but take with us a little bit of every teacher we have known.

Our high school—an inanimate heap of yellow brick—has sheltered us for four years, but it has done much more than that. We are not the same group of freshmen who entered four years ago. We hope we have matured, intellectually as well as physically. We have learned to grapple with problems, and ideas. We have made friends, and screamed at football games. We have learned to obey rules, and respect authority. We have the foundation. Perhaps some day Lawrence High School will be proud to name us among its graduates. We hope so.

The time to say goodbye is always a sad time. Who knows what the future holds? More school—marriage—careers—perhaps Viet Nam.

Whatever it is, we intend to do our best—and the credit is yours!

"THE MAN OF TRUSTS."

"THE MAN OF TWO PARTIES."

"THE MAN OF THE BOSTON MACHINE."

"THE MAN OF SELFISH AMBITION."

"This net, carefully spun by skillful politicians, must be brushed aside. The real Eugene N. Foss stands before you with mask torn off, a political 'Soldier of Fortune' masquerading behind issues which he himself cannot explain, stirring the broth of discontent as he flies from city to city, leaving no remedy save himself and his political heelers!"

SPEECH DELIVERED BY
NORMAN H. WHITE
IN BROOKLINE

Oct. 29, 1910

Brookline Republican Club,
MURRAY T. EDGAR, Pres.
LEO R. ARMSTRONG, Sec'y.

Mr. White said:—

Fellow Citizens of Massachusetts.

A state-wide campaign is before us, a campaign waged by two parties. Both are asking your suffrage; both profess to be the true friends of your beloved State. Both parties have records; both parties hold out to you bright promises for the future. These are times when men must think for themselves; and I trust the political ambitions of no man or body of men will sway you in your judgment.

On the one hand we have Eben S. Draper, on the other, Eugene N. Foss. The one a product of Massachusetts; the other a product of a sister New England state. In fairness to both, it is my intention to take up certain issues as well as I am able; and leave to you and your judgment the verdict for which you must stand sponsor. No man, or body of men, are infallible; but SINCERITY OF PURPOSE, HONESTY AND INTEGRITY, COURAGE AND ABILITY ARE THE FUNDAMENTAL FOUNDATIONS UPON WHICH OUR REPUBLIC HAS ARISEN to take its place as the leader among nations.

“ BIRDS OF A FEATHER.”

There is an old adage, “ Birds of a feather flock together.” Let us see. Mr. Foss has friends. Who are they? John F. Fitzgerald, Martin Lomasney, Timilty, Curley, and others. With untiring energy these men are

working for Mr. Foss' election to the highest office in this state. It may be that they are inspired by the highest motives! Of this you must be the judges. Permit me to quote from an editorial of a Boston paper under date of Oct. 28, 1910:—

It is a serious issue in the present campaign in Massachusetts whether the politics of the State must be hereafter under the control of a new Tammany—the powerful and active machine which dominates politics in Boston. It is well understood that the *Boston Machinery finally won its battle* begun in rowdyism and fisticuffs at Faneuil Hall, and dictated the nomination of the Democratic State ticket. . . . The plain and specific situation presents itself that the Democratic Machine of Boston is no longer able to pay its political debts with the chief offices of the Municipal Government. . . . *The real issue of the present campaign is not the cost of living; not the influence of Mr. Foss or Mr. Cassidy on Congress; but the question whether the Fitzgerald-Lomasney combination is to reach out beyond City Hall and grasp the control of affairs on Beacon Hill. . . . No voter who casts his vote on November 8th should ignore the fact.*

Fellow citizens, these statements are at least worthy of your consideration, and serious consideration. To whom will you deliver the State?

THE “NOMINATING COMMITTEE.”

And now I ask you when ever before in the history of this state has a political party assembled in the “Cradle of Liberty” delegated its power? How long since has

this been considered the will of a convention? How long since have the citizens of Massachusetts sat with folded hands and sanctioned by their ballots such delegation of power? My observance is that the Democrats decry commissions with arbitrary powers. Yet Mr. Foss would have you believe that his nomination was the will of the convention. What happened to Mr. Vahey who led the party almost to victory? Why does not Mr. Hamlin come out and tell you the story of his defeat at the hands of the Boston Machine? You will listen in vain for this story. You must answer to yourself the question: "Is Mr. Foss a real candidate?" "By what power or chicanery were others pushed aside?" "Shall I record my vote in approval of political proceedings unheard of before in Massachusetts history?"

ARE THE LIQUOR INTERESTS WITH FOSS?

I hold here before your eyes the "North American Wine and Spirit Journal." In glaring type I ask you to read these words: "The next Legislature" — "The Battle On." Then underneath you can read with me the following from this official organ of the rum traffic: —

Heretofore the trade has utterly neglected excepting in a few isolated instances, the election of Senators and Representatives in the Legislature. . . . The Bar and Bottle bill, a measure fraught with direct effects upon the trade and the public has become a law. That law cannot be allowed to remain upon the statute books of the Bay State. . . . When the candidates are named each should be made to go on record as to his views toward the Bar and Bottle law, and to other laws intended to cripple or harass the wine and spirit trade.

Here is a direct issue. Let us examine the facts! In 1910 a Republican Legislature passed the Bar and Bottle Bill for the protection of the home. A righteous attempt to restrict the "pint on the hip." The Democrats supported by the Liquor Interests fought the bill inch by inch. There are sixty-eight Democrats in the House. Sixty of these voted, — forty-eight voted against the bill, and twelve in favor, while eight refused to vote! The Democratic Party stood practically solidly for the Liquor Interest. Throughout the state the liquor interests are working for the Democratic Party. Do you think that their money and energy are being spent in favor of Governor Draper, or Mr. Foss and his friends who voted almost to a man against the Bar and Bottle Bill?

This is only another question for you to pass upon when you are exercising the right to cast your ballot.

THE EIGHT-HOUR BILL.

For a number of years there has been a law on our statute books pertaining to those who worked for cities, towns, counties or the state. This bill pertained to these people and no one else. This is the eight hour law. The intent of this law makes it optional with the municipalities, cities, etc., whether or not eight hours should be the hours of labor by those employed upon public work. Personally I have favored making this bill more clear, so that it would cease to be a political issue, — for while it APPLIES TO ONLY A FEW CITIZENS our Democratic brethren have been making every endeavor to make every working man think it applies to him. Governor Draper vetoed a change in this bill and has stood con-

sistently against the various changes proposed. Where was Mr. Foss? He stood with Governor Draper! Where is he now? He is allowing his campaigners and orators to arouse prejudice against Governor Draper for doing just what he asked to have done himself.

Consistency thou art a virtue!

Here is a letter which shows Mr. Foss in his true light. Listen while I read it: —

To His Excellency Hon. EBEN S. DRAPER, *Governor of the Commonwealth, State House, Boston, Mass.*

DEAR SIR: — We, the undersigned, respectfully state that we are engaged in business in this state, and that we believe that the enactment of such a law as House Bill No. 1593 which provides that employers shall not permit certain workmen engaged on work for state, county, city or town to work more than eight hours per day or forty-eight hours per week, will prove DETRIMENTAL TO THE INTERESTS OF THE STATE, the several counties, cities and towns; to our interests as employers, and also to the interests of our employees. We are now operating our plants more than forty-eight hours per week and are obliged to do so, as we are in competition with manufacturers whose working hours are from fifty-four to sixty per week. It will not be feasible for us to undertake work for the state, counties, cities or towns on which our employees are to work but eight hours per day, while fellow-workmen engaged on similar work for other customers, and working side by side are working nine hours or more per day. If this Bill becomes a law, it will for this reason result in reducing the number of manufacturers who can undertake work for the state, counties, cities and towns; it will increase the

cost of the work; and much public work which is now being done in the state by citizens of the state will inevitably be done in other states, lines 9 and 10 of Section 2 limiting the restrictions to those working in this Commonwealth. It is frequently necessary for our employees to work overtime, and for this overtime work it is customary to pay a higher rate of wages, and our employees usually welcome the opportunity to work overtime. WE BELIEVE THAT SUCH A LAW IS NOT NEEDED FOR THE PROTECTION OF THE WORKING PEOPLE or desired by the majority of the people of the state. We believe that such a law would be unconstitutional. For these and other reasons we hope and trust that you will veto the bill.

Yours respectfully,

B. F. STURTEVANT CO.,

E. N. Foss, *Treasurer.*

Surely Governor Draper and Eugene N. Foss were in accord! Why should Foss allow it to be made an issue? Solely because he wants labor's vote and doesn't care how he gets it! Will you vote for Foss on this issue?

FOSS THE MAN OF MANY CORPORATIONS.

But this is not half the story, neither will time permit me to give it all. Mr. Foss decries the trusts; he decries the high prices and pleads for your ballots as "a man of the people." Let no voter be misled. Mr. Foss will not tell you even some of the facts. Probably there are few, if any, men in New England who are directly connected

with more corporations than Eugene N. Foss. Yet he is the "working man's friend" at election time. Listen to this list, and remember it when you silently deposit your ballot.

Eugene N. Foss, 34 Oliver Street, 1909.

President and Director Bridgewater Water Co.

Director Hyde Park National Bank.

Director Massachusetts Real Estate Exchange.

Treas. and Director of B. F. Sturtevant Co.

Director Brooklyn Heights R.R. Co., which is owned by the Street Railroad Trust of Greater New York.

Director Brooklyn Rapid Transit Co.

Massachusetts Electric Co., finds him a member of its Executive Committee and Trustee. This is the Street Railway Trust of Massachusetts.

President Maverick Mills, East Boston.

President and Director Burgess Mills.

Director Chicago Junction Railway, owned and controlled by the Beef Trust.

Director Union Stock Yards Co. THIS IS A PART OF THE BEEF TRUST largely responsible for the high cost of meat.

Director Manhattan Railway Co., which has debauched politics in New York City for years.

President and Director Mead Morrison Mfg. Co. — a non-union shop where the machinists are now on strike.

Director and member of the Executive Committee of the Mexican Central Railway, which has been branded as employing underpaid and wretched laborers.

Director East Boston Land Co.

Oh Mr. Foss, your cries of "high cost of living," your cries of "pity for labor," how far will these carry to the hearts of our citizens; and yet you talk of the tariff and the high cost of living to lead the public away from your true standing to take their vote.

FOSS THE FREE TRADER.

Look at this Congressional Record, May 28th, 1910, pages 7240 and 7241. Only a few short months ago on the floor of the House of Representatives in Washington Eugene N. Foss said: "I believe that the great popular party of this country ought to sympathize with and encourage the Liberal Party of Great Britain. That party is now engaged in the great work of liberalizing their institutions . . . *and especially of maintaining the Historic Policy of Free Trade.*" A little later he said: "I maintain that we should extend to Great Britain the recognition to which she is entitled for her commercial attitude toward us."

Mr. Foss knows at heart he is a "free-trader." These remarks indicate it. He knows it is impossible under our commercial treaties to give absolute free trade to all imports from Great Britain. If we did this with Great Britain we would have to give free trade with all other nations. This is Mr. Foss' wholesale pledge as far as he can redeem it. This means the ruin of American Industry; the starvation of American Labor; and the bankruptcy of the National Treasury. This is worse than the old Bryan cry of "16 to 1" — worse than the "green-back craze"; and other similar discredited doctrines now long since exploded.

THE CRY ON THE TARIFF.

If Mr. Foss wants to have his thousands of American workmen compete with the laborer of Germany, England, France, Italy, and other under-paid countries why doesn't he stay in Congress where he is sure of his own vote? No governor has a vote on the tariff and Mr. Foss knows it. He also knows that Taft is President and will be for two years, and no new tariff bill in those years will be made a law without Mr. Taft's signature, whether Mr. Foss is travelling with Dr. Cook to the North Pole or whether he is working with the Beef Trust, or whether he is Governor, or just plain Eugene N. Foss. He knows, furthermore, that *he, as much as any man in Massachusetts, is responsible for the high prices in beef and other things.* Does he sell his products less than others? Does he treat his labor better? Do his traction companies, their allies and political henchmen stand so high in the community that he can afford even to speak of high prices to the voters? Is he proud of his seat as a member of the executive committee of the Mexican Central Railroad, which handles poor, ignorant, half-starved men like cattle? No Mr. Foss, Massachusetts is not seeking a political "Soldier of Fortune" to link his name with the names of Greenhalge, Wolcott, Russell, Douglas, Bates, Guild and Draper! Massachusetts stops and hesitates. Her history is precious; her record is proud; she is not ashamed of her past; she must not be ashamed of her future. She has no use for the soup kitchen of England or the bread line of Paris!

How many concerns are in the blower business which you do not control, Mr. Foss? Do you not control at least 80% of the business; three out of four concerns doing business under various names? Tell the people how a bid for work is made? Your three concerns all bid do they not? Each knows the bid of the other? Heads you win! Tails I lose almost every time! Yet you are crying out against high prices — against monopolies and restraint of trade, and your cartoonists are filling the public press with appealing pictures decrying the very sort of thing you yourself are doing. Massachusetts fears the demagogue allied with corporations with millions of watered stock. She fears the bleating of the man who appears as the wolf in sheep's clothing, taking advantage of every appeal to our citizens.

Eugene N. Foss the banker, the speculator, the railroad trust magnate, the employer of non-union labor, the employer of labor now on strike, he of many executive committees, he of the beef-trust, he of the stock-yards, and the stock-ticker, he of rapid transit comes before you to tell you of your hardships, to make you think America is trust-ridden and he will relieve your burdens.

HIGH COST OF LIVING.

If beef is high remember Eugene N. Foss' interest in the beef. Would Eugene N. Foss complain about the high cost of beef, if he did not want your vote? No, and you know it!

He dare not tell you that it costs more for food in England, France, Germany, Italy and Spain than it does here.

Yet he would help drag down the wage scale here to the wage scale in Europe.

He dare not tell you that increase in population and crowding into cities has caused increased prices. He does not talk about supply and demand. He will not tell you any of the wage scales in Europe. No! He forgets during campaign time that America is the richest and best country on earth, but his party and his politics have never helped to make her so! He forgets these things and thousands more. He forgets the world-wide high cost of living. He forgets railway men in England get \$4.25 per week; that farm laborers get \$2.88; that city employees get 10 cents per hour; that men who work on dangerous works get \$9 per week. He does not tell you that skilled bookbinders get \$8.50 per week; that shipbuilders earn from \$6 to \$9.50; that bleachers and dyers work 12 to 14 hours per day, and lads often under eighteen work 12 hours a day. He doesn't tell you that tailors work 84 hours per week and get as high as \$5.04. Why does not Eugene N. Foss tell you of the unemployed in Europe, where there is no tariff? He will not make comparisons of conditions here and abroad. Let Mr. Foss or the "Free-Traders" tell you about Free-trade England. Will he reduce the price of things to eat here if they cost as much abroad, or more than they do here even if he brings them in here free of duty? Why does he not compare conditions in Canada with conditions here? The Canadians are much poorer than we are here. The English also are so much poorer that a contrast is appalling. Rents are as dear or dearer than ours, while buildings are worse; food costs as much or

more while wages are lower. The citizen of Great Britain has on the average \$25 in the Savings Bank while the citizen of Massachusetts has \$240. The whole of Great Britain has in her Savings Banks only three hundred more millions than the whole of Massachusetts, while our population is 3,336,416 and her population more than forty-five million. Mr. Foss does not dare tell you the cost of living is high everywhere, and the price of wages is higher here than everywhere else.

The Republican Party can and will make what tariff revision is necessary and wise. But Foss would have you turn to him with his allied interests. He is the Moses! He of the trusts; he, backed by the Boston Machine; he will fix the great tariff for you when he is governor. This net carefully spun by skillful politicians must be brushed aside. The real Eugene N. Foss stands before you with mask torn off, — a political “Soldier of Fortune” masquerading behind issues which he himself cannot explain, stirring the broth of discontent as he flies from city to city leaving no remedy save himself and his political heelers. Foss the man of the trusts; the man of two parties; the man of the Boston Machine; the man of selfish ambition.

“Hostile to Labor”

WHAT SAMUEL A. GOMPERS says OF EUGENE N. FOSS

In a letter to Attorney Frederick W. Mansfield, of Boston, dated Washington, D.C., Sept. 24, 1910:

“In case Mr. Foss was again a candidate for the 14th district, the record that Mr. Foss made upon the Hughes amendment to the sundry civil appropriation bill would set him in the class of being hostile and indifferent to the welfare of labor.”

Yours very truly,

SAMUEL GOMPERS, President

American Federation of Labor

What Frederick W. Mansfield, Democratic Convention nominee for Governor and attorney for the State Branch, A. F. of L., says of Mr. Foss in his speech at Malden, on Sept. 26, 1910.

“This letter of Mr. Gompers leaves no room for doubt as to the attitude of Mr. Gompers and the Federation toward Mr. Foss. Mr. Gompers’ remark that the congressman from the 14th district would be in the ‘hostile and indifferent class’ ought to be sufficient to eliminate him as a candidate from the labor standpoint”

THE FOSS EIGHT-HOUR LETTER

This is the letter which Mr. Foss says he never wrote. Is it a forgery, Mr. Foss?

AUGUSTUS P. GARDNER,
Hamilton, Mass.

To his Excellency,
Hon. Eben S. Draper,
Governor of the Commonwealth,
State House, Boston, Mass.

Dear Sir:

We, the undersigned, respectfully state that we are engaged in business in this state, and that we believe that the enactment of such a law as House Bill #1593, which provides that employers shall not permit certain workmen engaged on work for state, county, city or town to work more than eight hours per day or forty-eight hours per week, will prove detrimental to the interests of the state, the several counties, cities and towns; to our interests as employers; and also to the interests of our employes.

We are now operating our plants more than forty-eight hours per week and are obliged to do so, as we are in competition with manufacturers whose working hours are from fifty-four to sixty per week.

It will not be feasible for us to undertake work for the state, counties, cities or towns on which our employes are to work but eight hours per day while fellow-workmen engaged on similar work for other customers, and working side by side, are working nine hours or more per day. If this Bill becomes a law, it will for this reason result in reducing the number of manufacturers who can undertake work for the state, counties, cities and towns; it will increase the cost of the work; and much public work which is now being done in the state by citizens of the state will inevitably be done in other states, lines 9 and 10 of Section 2 limiting the restrictions to those working in this Commonwealth.

It is frequently necessary for our employes to work overtime, and for this overtime work it is customary to pay a higher rate of wages, and our employes usually welcome the opportunity to work overtime.

-2-

We believe that such a law is not needed for the protection of the working people or desired by the majority of the people of the state.

We believe that such a law would be unconstitutional.

For these and other reasons we hope and trust that you will veto the Bill.

Yours respectfully,

B. F. Shumway
E. H. Foss
